SUMMARY

AWS Certified Cloud Practitioner building hands-on experience in cloud technology through AWS projects and preparing for the Solutions Architect - Associate exam. Experience includes a technology internship at Deloitte and project work through Lecturus. Currently expanding practical skills in cloud architecture and artificial intelligence, including Agentic AI and AI business strategy.

EDUCATION

New York City College of Technology (CUNY) - Brooklyn, NY

Bachelor of Technology, Computer Systems | June 2026

Magna cum laude | GPA: 3.5

CERTIFICATIONS & ADDITIONAL TRAINING

Earned: AWS Certified Cloud Practitioner; ScrumMaster Certification (Scrum Alliance)

In progress: AWS Solutions Architect - Associate exam preparation (exam scheduled); Artificial Intelligence training program, Spain (final assessment pending)

TECHNICAL SKILLS

AWS: S3, IAM, EC2, CloudFormation, Lambda, Amazon Bedrock

Tools: Visual Studio Code, terminal-based workflows, Git/GitHub

Additional familiarity: WordPress, Elementor (basic), Agile and Scrum

PROJECTS

CloudPath AI - AWS Learning Assistant | In Progress

- Created an AWS CloudFormation stack to provision project infrastructure.
- Tested an Amazon2Nova Lite model in Amazon Bedrock and created and successfully ran an AWS Lambda function using the integrated terminal in Visual Studio Code.
- Created clear project documentation covering setup and testing.

AWS Cloud Infrastructure Practice

- Hosted a static website in Amazon S3 and practiced AWS access management using IAM.

EXPERIENCE

Deloitte Consulting LLP - New York, NY

DC Junior Associate Intern - Innovation & Technology | January - April 2024

- Collaborated with business stakeholders to review technical and business requirements.
- Participated in daily standups, sprint planning, backlog discussions, and Program Increment planning.
- Supported AWS-hosted application initiatives and contributed to client-facing presentations and technology solutions.
- Quantum computing research and use cases presentation

HelpMate Micro-Business Project - Lecturus Internship - New York, NY

WordPress Developer & Project Manager | June - August 2025

- Co-developed a service platform using WordPress and Elementor and collaborated with cross-functional team members to support delivery and technical implementation.
